ANC3/4G Resolution in Support of Proposed B24-0726,  
“The Enhancing Reproductive Health Protections Amendment Act of 2022”  
June 13, 2022

Whereas, the District of Columbia has for many years provided the ability for District of Columbia (DC) residents to avail themselves of Reproductive Rights procedures;

Whereas such ability is strongly supported by the residents of DC, as evidenced in the positions of a majority of city council members;

Whereas “self-managed” methods and telehealth procedures are becoming increasingly used for pregnancy decisions.

Be it resolved that ANC3/4G support proposed legislation before the Council in B24-0726 which addresses the inclusion of the “self-managed” pregnancy termination method in DC, and provides certain protections for persons and parties involved in self-managed Reproductive Rights procedures, provided that such persons and parties act in conformity with all DC Reproductive Rights laws and regulations and any Federal regulations or protocols related to pharmaceuticals used for the self-managed approach.

Be it further resolved that in light of DC Home Rule, that DC Medicaid funds be made available for reproductive rights services offered by authorized providers in DC and that the DC Delegate to the U.S. Congress be encouraged to continue efforts to achieve this goal.

Adopted by ANC3/4G at a duly noticed public meeting on June 13, 2022 by a vote of 6 yes, 0 no, 0 abstentions (a quorum being 4).

Randy Speck, Chair

Peter Gosselin, Secretary
