19:37:23 From Connie K. N. Chang, ANC 3/4G-05 to Everyone:

Robert, glad I was able to help! Sept 17th will be a nice day for our community. Thank *you* and CCCA for taking this on!

19:43:51 From Lenace Edwards to Host and Panelists:

I'm here!

20:20:07 From RONALD EICHNER to Host and Panelists:

OP agreed with almost all ANC recommendations. They did not agree to have the ANC do the technical work OP is best able to do. ANC has great weight. That's how it works

20:26:59 From RONALD EICHNER to Host and Panelists:

The SAP is the starting point for the zoning/design guidelines. The community has been deeply involved with the SAP for over a year.

20:28:22 From RONALD EICHNER to Host and Panelists:

Treating this as the beginning of a process is just incorrect and counterproductive.

20:33:40 From RONALD EICHNER to Host and Panelists:

The ANC was not 'knocked down.' The SAP is very responsive to ANC substantive concerns. Virtually the only thing they don't do is let the ANC write the zoning! A standing comm can help the ANC comment, but the process isn't really unreasonable

20:44:50 From RONALD EICHNER to Host and Panelists:

Speaking on behalf of those with expertise in these areas, we totally support the formation of a committee like this. It would facilitate all discussions of growth and development

20:46:45 From Michele Wolin to Everyone:

You may want to consider having an attorney who specializes in this to consult when needed.

20:54:52 From Michele Wolin to Everyone:

Please listen to the community, too. This has been the problem all along.

20:56:10 From RONALD EICHNER to Host and Panelists:

I think testimony should clearly state that The idea of 1) SAP 2) Civic Core 3) Special Zone and 4) Form Based Codes ALL came from community so it is only right that community be involved in next phase.
