

COMMUNITY QUESTIONS FOR THE ANC FIELD TASK FORCE for 1/18/24 MEETING

(received via our RSVP form)

Do you have a question you want to ask the Task Force or the ECC/Maret teams? 7 responses

Please explain the basis for the selection of the cochairs. Identify any connections to Maret

What are the primary decision factors to facilitate this construction being completed as submitted?

Can you please respond to the claim that Maret is embarking on a "profit-making" venture?

Can you also put the issue of the trees in perspective? -- The percentage of sick or dead trees of the 60 or so that will be cut down, the percentage of healthy trees that will remain, and the number of new trees that will be planted for screening and other purposes?

Will there be a question and answer period following your discussion that allows for questions to be asked by those in attendance? In other words, must all questions be posed through this format prior to what we hear in the meeting? Thank you.
