MARET

NOSCERE VIVERE EST  TO LEARN IS TO LIVE

Dear Neighbors,

Our tree relocation company, Environmental Design, Inc., has been on the fields at the ECC since March 1 preparing the site to move the heritage trees. They are continuing their work this week, beginning to dig out the heritage tree root balls. As a reminder, the roots were pruned in Spring 2022 to allow new feeder roots to grow in the area of the root balls that will be moved. This strategy ensures the transplanted trees can absorb the appropriate amount of water and nutrients.

EDI has not yet needed to deliver heavy equipment to the site but will do so in the coming weeks. Access for those deliveries will take place via Nebraska Avenue. **EDI will not be using the Utah/Rittenhouse alleys for these heavy equipment deliveries.**

CONTACT INFORMATION

To contact Project Manager Johnny Seikaly and the Task Force with a question or complaint about the tree work:
