what is the very important work?

19:16:08 From Bruce Sherman to Lisa Gore – ANC 3/4G-01(Direct Message):

Lisa, did you get calls about noticing the meeting? I assume we are good, as we just took votes, but just wanted to be sure.

19:16:29 From Elizabeth Nagy to Lisa Gore – ANC 3/4G-01(Direct Message):

Who was speaking? Who is speaking now?

19:16:48 From Sheryl Barnes to Everyone:

ask the speakers to speak into the mike.

yeah an email. Notice was proper

19:17:18 From Stuart Miles-McLean to Everyone:  
Sorry, but I could not understand what either of those speakers were talking about

19:17:54 From Elizabeth Nagy to Lisa Gore - ANC 3/4G-01(Direct Message):  
The audio is unintelligible.

19:29:46 From Jessica Randazzo to Everyone:

Seems like as it's an existing structure he shouldn't have to demolish. All of our garages back to the alleys (those of us on alleys).

19:32:52 From Jeff Dardis to Everyone:

Can't hear

19:33:10 From Stuart Miles-McLean to Everyone:

Can't hear him. Very muffled

19:33:34 From Jeff Dardis to Everyone:

Much better, thank you.

19:39:46 From Elizabeth McPike to Everyone:

Given the time constraints of an ANC meeting, and the fact that the ANC has sub-committees to address various issues, would it be appropriate/kosher/legal to have these individual property/zoning/construction issues handled outside the full ANC?

19:41:41 From Sheryl Barnes to Everyone:

It is unclear why he is not simply applying for a fence permit by right??

19:42:01 From Stuart Miles-McLean to Everyone:

19:43:56 From Stuart Miles-McLean to Everyone:

Is there an image of the area being discussed?

19:44:31 From Stuart Miles-McLean to Everyone:

Is this the area where the stream was "day-lighted" a few years ago?

19:44:34 From Sheryl Barnes to Everyone:

tendency to wash out

19:46:48 From Sheryl Barnes to Everyone:

get a civil engineering study. it won't work

19:47:26 From Stuart Miles-McLean to Everyone:

Is some of the property federal park land?

19:47:34 From Sheryl Barnes to Everyone:

yes

19:48:50 From Sheryl Barnes to Everyone:

There is a Federal Component - it will need to go to Commission of Fine Arts (Federal) so why is this taking the time here?

19:49:55 From Sheryl Barnes to Everyone:

run the clock

19:50:40 From Stuart Miles-McLean to Everyone:

So State Dept & DOI/NPS, plus DC DDOT and others will need to engage? What a mess, but if I understand properly where it is, I would support it since it is a VERY pedestrian unfriendly stretch.

19:51:18 From Sheryl Barnes to Everyone:

Stuart, CFA is the first stop.

19:51:30 From Sheryl Barnes to Everyone:

Regardless of the obstacles, the ANC can still express its opinion about the project. You should not withhold your opinion simply because there are bureaucratic hurdles.

19:53:39 From BARBARA ROGERS to Lisa Gore - ANC 3/4G-01(Direct Message):  
Hi Lisa, was this under Janeese? If so, I can find out later.

19:53:52 From Lisa Gore - ANC 3/4G-01 to BARBARA ROGERS(Direct Message):  
might have been..

19:54:07 From BARBARA ROGERS to Lisa Gore - ANC 3/4G-01(Direct Message):  
I will check tomorrow and let you know.

19:54:16 From Sheryl Barnes to Everyone:  
maybe table it for now?

19:55:00 From Ronald Kahn to Lisa Gore - ANC 3/4G-01(Direct Message):  
IF you believe this is an open question- Is the beach drive closure - possible traffic impact/changes a factor in the justification of this effort? Do we have a traffic study?

19:55:55 From Thomas Sneeringer to Everyone:  
Agree with Stuart Miles McLean

19:56:16 From Sheryl Barnes to Everyone:

20:02:13 From Stuart Miles-McLean to Everyone:  
Lack of a map for the last discussion really limited those who are unfamiliar with the particular stretch of road.

20:03:24 From Sheryl Barnes to Everyone:  
Stuart, the stretch of BB Road between Linnean and Beach.  
First stop for any ask is CFA - federal

20:04:53 From Stuart Miles-McLean to Everyone:  
Our commissioner has not done what Comm. Sherman just described and our home is a 'stones throw' from the Civic Core.

20:05:36 From Sheryl Barnes to Everyone:  
Chevy Chase Commons, Library and Community Center

20:06:32 From Stuart Miles-McLean to Everyone:  
My point is that it is simply not true that every commissioner is holding meetings or doing specific outreach to the residents in their single-member districts.

20:09:12 From Sheryl Barnes to Everyone:

The last survey was ignored. The majority was against surplus / upzoning and private development.

20:15:22 From Sheryl Barnes to Everyone:

EDDM via USPS to every resident in Chevy Chase

20:17:19 From Nancy Wilson to Everyone:

Is there ny assurance that DPR will have staffing to support use of areas; I.e., weight room, commercial kitchen, computer room, woodworking room? The current facility had those spaces, but they were only allowed to be used when DPR staff was available to monitor; therefore, those areas have been closed for years.

Is it definite that the property is being surplused?

Nancy Wilson

20:17:41 From Michele Wolin to Everyone:

This is all garbled, please repeat her question.

20:18:03 From Lisa Gore - ANC 3/4G-01 to Everyone:

The next meeting of the Survey Committee will be tomorrow at 7pm. The committee meets every Tuesday and you can use this link to register for the next meeting: <https://zoom.us/meeting/register/tJcufuqrpz0qHtKptU9WPjg5kIz0fXUWCv-3>

20:18:47 From Stuart Miles-McLean to Everyone:

I can't understand her. Please repeat/summarize. Thanks

20:19:06 From Sheryl Barnes to Everyone:

It was ignored and hidden for months. It recently surfaced.

20:19:31 From Sheryl Barnes to Everyone:

Mike issues

20:19:32 From Stuart Miles-McLean to Everyone:

odd that the sound quality generally has deteriorated relative to earlier in the meeting

20:19:45 From 3/4G Owl to Everyone:

The question was whether our neighbors who live outside our ANC will be able to take the survey. The questioner lives three blocks outside ANC 3/4G

20:19:55 From Sheryl Barnes to Everyone:

ha! it goes in and out on the important topics

20:20:55 From Sheryl Barnes to Everyone:

what about the results of the last survey that City and ANC did not like?

20:22:17 From Stuart Miles-McLean to Everyone:

Has the Civic Core property been surplused by the City and is there documentation of that act available somewhere?

20:25:04 From Michele Wolin to Everyone:

It will be very important to make sure that any context given is unbiased and simply factual. I saw one proposed survey with a very biased "background."

20:27:47 From jerry malitz to Everyone:

Of the 929 people that responded to the community center survey that was published in a report in jan 2018 897 responded to the zipcode residence question of those 76% reported living in 20015 zip code.

20:28:04 From Elizabeth McPike to Everyone:

Also, I think, Sheryl is asking about the 2017 survey.  
20:30:17 From Elizabeth McPike to Everyone:  
But what, if any, impact did those comments have on your thinking??

20:32:21 From Michele Wolin to Everyone:  
It is truly a shame that a survey wasn't done two years ago, before the ANC approved the SAP, so the community could have had a voice when it most mattered.

20:32:45 From stephanie kayden to Everyone:  
Reacted to "It is truly a shame ..." with 👍

#### Small Area Plan

20:33:35 From Jessica Randazzo to Everyone:

Reacted to "Small Area Plan" with 👍

20:33:37 From Sheryl Barnes to Everyone:  
The CCSAP needs a total re-design with actual community involvement. It is written by developers for developers.

Reacted to "It is truly a shame ..." with 👍

20:34:18 From Stuart Miles-McLean to Everyone:

I agree a survey is important, but while the ANC discusses it, developers' minions are busily 'measuring for drapes' in our neighborhood. Survey crews have been documenting every detail of 39th Street since at least February -- including documenting (tagging & measuring) every tree, sign post, fire hydrant, and the like -- each item tagged with neon paint -- plus neon paint on every corner and in the street -- as well as surveyor spikes and flags even driven into the yard on private property without the permission of property owners. The survey crews either do not know, or will not share who is paying for their work. I've raised this concern to my ANC commissioner, but got no further insight into this extensive work. Why is the ANC treating surplus and RFP for the Civic Core as a given, when the community is asking fundamental questions?

20:36:56 From Sheryl Barnes to Everyone:

Stuart, that is a tree study conducted as part of a Civil Engineering study and we need answers as to the entity conducting the study. My guess is DMPED

20:37:46 From Jessica Randazzo to Everyone:

It does sound like this rezone development is already wanted by people with bigger pockets and the fear is that our survey isn't going to affect their plans.

20:37:50 From Sheryl Barnes to Everyone:  
thank you Bruce Sherman

20:38:14 From Jessica Randazzo to Everyone:

Reacted to "I agree a survey is ..." with 👍

20:41:15 From Jessica Randazzo to Everyone:  
Yes @Snigdha Prakash thank you. The WaPo article made it seem that was our community's singular voice which is incorrect. Thank you.

20:41:18 From Sheryl Barnes to Everyone:  
Jessica, the survey is simply a Deputy Mayor / Planning "check the box step" that is part of the process leading to surplus / private development

20:41:29 From Jessica Randazzo to Everyone:  
Reacted to "Jessica, the survey ..." with 👍

20:41:45 From Stuart Miles-McLean to Everyone:  
Sheryl, it's not a tree study. It is much more than that. International development firms like CoStar don't send out folks to inspect our street and homes for a DC tree study. Nor do tree studies need to mark sign posts and utility lines, much less drive surveyor spikes into peoples' yards.

20:43:06 From Sheryl Barnes to Everyone:  
Absolutely Stuart, you misunderstood me. The tree study is a part of the larger Civil Engineering Study that some entity is conducting.

20:43:46 From Stuart Miles-McLean to Everyone:  
Reacted to "Absolutely Stuart, y..." with 👍

20:44:26 From Michele Wolin to Everyone:  
Snigda is correct. The opposition is not to affordable housing, even though that is how proponents of the development try to paint us. The opposition is to housing of any type on this public site, because it is incompatible with the many public uses of this site. As one retired urban planner put it, the pro-development plans are asking too much of this small space.

20:44:38 From Sheryl Barnes to Everyone:  
Also we have 100s of comments from over 700 petition signers against this landgrab. [ccdcvoice.org](http://ccdcvoice.org)
